

Summer Mentorship Program

Individuals participating in

GONZALEZ COMPANIES MENTORSHIP PROGRAM

Will be given the opportunity to work along side industry professionals. This year's focus will be engineering, construction, construction management, IT, architecture, legal, human resources, and business development/marketing. We will also be looking at the arts industry as well this year.

The sessions will include shadowing opportunities within various types of professional and technical careers while learning about the necessary education and/or training that is associated with each path.

This **8-week program** will begin on June 14th and will be held every Tuesday and Thursday starting at 9 a.m. (lunch will be provided for all participants).

Transportation for this program will be provided through the **17th Street Corridor Neighborhood Association**.

If you have any questions, please contact Pat Judge @ pjudge@gonzalezcos.com
